How to use this document

This document defines the **User Stories** and **Acceptance Criteria** for the MaharaTech e-learning platform. It is structured by functional module. Each module contains: (1) **User Stories** — written from the learner's perspective in the format 'As a [role], I want to [action] so that [goal]', and (2) **Acceptance Criteria** — specific, testable conditions that must be true for each user story to be considered complete.

Priority levels: **High** — must work before launch. **Medium** — important but not launch-blocking. **Low** — nice to have.

1 Homepage & Navigation

The homepage is the first touchpoint for all visitors. It must communicate MaharaTech's value proposition, surface featured/popular courses, and provide intuitive navigation to all key areas of the platform.

Personas: **Guest Visitor** | **Registered Learner**

User Stories

US-01	Guest Visitor	see a clear, welcoming homepage with featured courses and platform highlights	quickly understand what MaharaTech offers and be motivated to explore or register	High
US-02	Guest Visitor	navigate easily using a top menu (Home, Courses, Login, Register)	reach any section of the platform in at most two clicks	High
US-03	Registered Learner	see a personalized dashboard link or 'My Learning' section when logged in	quickly resume my enrolled courses without hunting for them	High
US-04	Guest Visitor	see the site in both Arabic and English	use the platform in my preferred language	High

Acceptance Criteria

AC ID	US Ref	Criterion — The feature is accepted when...
AC-01-1	US-01	Homepage loads within 3 seconds on a standard broadband connection.
AC-01-2	US-01	Featured/popular courses are visible above the fold on desktop (1366px+) without scrolling.
AC-01-3	US-01	A clear call-to-action button ('Browse Courses' or 'Register Free') is visible on the hero section.
AC-02-1	US-02	All main navigation links (Home, Courses, Login, Register) are present and functional with no 404 errors.
AC-02-2	US-02	Navigation is accessible via a hamburger/drawer menu on mobile viewports (< 768px).
AC-03-1	US-03	When a logged-in user opens the homepage, a 'My Learning' or dashboard link replaces the Register button.
AC-04-1	US-04	A language toggle (AR / EN) is visible in the header on all pages.

AC-04-2	US-04	Switching to Arabic triggers full RTL layout on the homepage; all text, icons, and navigation are mirrored.
---------	-------	---

2 Registration & Authentication

User registration and login are the gateway to the platform. They must be simple, secure, and handle edge cases gracefully. MaharaTech likely uses national or government email registration, so validation rules are important.

Personas: *New Visitor* | *Returning Learner*

User Stories

US-05	New Visitor	register for a free account using my email and password	start learning on MaharaTech	High
US-06	New Visitor	see clear validation messages if I fill the form incorrectly	fix my mistakes quickly without frustration	High
US-07	Returning Learner	log in with my email and password	access my dashboard and continue my courses	High
US-08	Returning Learner	reset my password if I forget it	regain access to my account without contacting support	High
US-09	Returning Learner	stay logged in across sessions (Remember Me)	avoid logging in every time I visit	Medium
US-10	Returning Learner	log out securely from my account	protect my account on shared devices	Medium

Acceptance Criteria

AC ID	US Ref	Criterion — The feature is accepted when...
AC-05-1	US-05	Registration form requires: full name, valid email address, password (min. 8 characters), and password confirmation.
AC-05-2	US-05	On successful registration, a success message is displayed and/or a confirmation email is sent.
AC-05-3	US-05	Registering with an already-used email displays an error without revealing account existence details for security.
AC-06-1	US-06	Each required field shows an inline error if left blank or filled incorrectly (e.g., invalid email format).
AC-06-2	US-06	Password mismatch between the two password fields shows a clear error before form submission.

AC-07-1	US-07	Login with valid credentials redirects the user to their personal dashboard within 2 seconds.
AC-07-2	US-07	Login with invalid credentials shows a generic 'Invalid email or password' error without specifying which field is wrong.
AC-07-3	US-07	After 5 consecutive failed login attempts, the account is temporarily locked or a CAPTCHA is required.
AC-08-1	US-08	Clicking 'Forgot Password' presents a form to enter an email address.
AC-08-2	US-08	A password reset link is sent to the registered email within 2 minutes.
AC-08-3	US-08	The reset link expires after 24 hours and cannot be reused after one successful password change.
AC-09-1	US-09	Checking 'Remember Me' keeps the user logged in for at least 7 days without re-authentication.
AC-10-1	US-10	Clicking 'Logout' immediately clears the session and redirects to the homepage.
AC-10-2	US-10	After logout, pressing the browser back button does not restore access to a protected page.

3 User Profile

The user profile is the learner's personal space on the platform. It should reflect their identity, track their progress, and give them control over their account settings.

Personas: **Registered Learner**

User Stories

US-11	Registered Learner	view my profile page with my name, photo, and bio	have a personalized presence on the platform	Medium
US-12	Registered Learner	edit my profile information (name, bio, profile photo)	keep my account up to date	Medium
US-13	Registered Learner	change my account password from settings	maintain account security	High
US-14	Registered Learner	view all my enrolled courses and progress in my profile	have a single overview of my learning journey	High
US-15	Registered Learner	view my earned certificates from my profile	access and download my credentials at any time	High

Acceptance Criteria

AC ID	US Ref	Criterion — The feature is accepted when...
AC-11-1	US-11	Profile page displays: full name, avatar/photo, bio, join date, and number of enrolled courses.
AC-12-1	US-12	Changes to name, bio, or photo are saved immediately and reflected on the profile page without page reload.
AC-12-2	US-12	Profile photo upload accepts JPG and PNG files up to 2MB; files over the limit show a clear error.
AC-13-1	US-13	Password change requires entering the current password before accepting a new one.
AC-13-2	US-13	After a successful password change, the user is required to log in again with the new password.
AC-14-1	US-14	The profile shows all enrolled courses with their title, thumbnail, and completion percentage.
AC-14-2	US-14	Completed courses are visually distinguished from in-progress ones (e.g., green checkmark or 'Completed' badge).

AC-15-1	US-15	All earned certificates are listed in the profile with course name and date of completion.
AC-15-2	US-15	Each certificate has a 'Download' button that produces a valid, properly formatted PDF.

4 Course Catalog & Discovery

The course catalog is the core browsing experience of MaharaTech, similar to Udemy's or Coursera's browse page. Learners must be able to find relevant courses quickly through filters, search, and categories.

Personas: **Guest Visitor** | **Registered Learner**

User Stories

US-16	Guest Visitor	browse all available courses without needing to log in	explore the platform before committing to an account	High
US-17	Guest Visitor	filter courses by category (e.g., IT, Business, Design)	find courses relevant to my field	High
US-18	Guest Visitor	filter courses by difficulty level (Beginner, Intermediate, Advanced)	find courses appropriate for my current skill level	High
US-19	Guest Visitor	sort courses by popularity, newest, or rating	surface the best or most relevant courses first	Medium
US-20	Registered Learner	see a 'New' or 'Popular' badge on highlighted courses	easily spot trending or newly added content	Low
US-21	Guest Visitor	see course cards with title, instructor, duration, level, and enrollment count	make an informed decision before clicking into a course	High
US-22	Guest Visitor	navigate through multiple pages of courses using pagination	explore the full catalog without being overwhelmed	Medium

Acceptance Criteria

AC ID	US Ref	Criterion — The feature is accepted when...
AC-16-1	US-16	The course catalog page (index.php) is fully accessible to unauthenticated users.
AC-16-2	US-16	All published courses are displayed; unpublished/draft courses are not shown to learners.
AC-17-1	US-17	Category filter options are present and functional; selecting a category updates the displayed courses without a full page reload.
AC-17-2	US-17	Selecting a category that has no courses displays a friendly empty-state message.

AC-18-1	US-18	Difficulty filter (Beginner / Intermediate / Advanced) is present and shows only matching courses when applied.
AC-19-1	US-19	Sort options (Popularity, Newest, Rating) produce visibly different, correct orderings.
AC-21-1	US-21	Each course card shows: title, category tag, instructor name, difficulty level, and enrollment count.
AC-21-2	US-21	Course card thumbnail images are loaded correctly; broken images are replaced with a placeholder.
AC-22-1	US-22	Pagination controls are present when more courses exist than the per-page limit; navigating to page 2+ loads the correct courses.

5 Course Detail Page

When a learner clicks on a course, they land on the detail page — the equivalent of Udemy's course landing page. This page must persuade, inform, and provide a clear path to enrollment.

Personas: **Guest Visitor** | **Registered Learner**

User Stories

US-23	Guest Visitor	see a full description of the course including objectives, prerequisites, and syllabus	decide whether this course is right for me before enrolling	High
US-24	Guest Visitor	see the instructor's name, photo, and brief bio	build trust in the course quality	Medium
US-25	Guest Visitor	see the course duration, number of lessons, and level of difficulty	plan my learning schedule	High
US-26	Registered Learner	see a clear 'Enroll Now' button on the course detail page	easily enroll with one action	High
US-27	Guest Visitor	see a preview video or introductory content before enrolling	get a feel for the course style and quality	Medium

Acceptance Criteria

AC ID	US Ref	Criterion — The feature is accepted when...
AC-23-1	US-23	Course detail page includes: title, full description, what you will learn (objectives list), prerequisites, and a syllabus/outline.
AC-23-2	US-23	The syllabus shows section titles and lesson counts; individual lessons may be locked for non-enrolled users.
AC-24-1	US-24	Instructor name is displayed; if a bio is available, it appears below the course description.
AC-25-1	US-25	Course metadata (total hours/duration, number of lessons, difficulty level) is clearly visible near the top of the page.
AC-26-1	US-26	'Enroll Now' button is prominently placed on the detail page. For logged-in users it triggers enrollment; for guests it redirects to login.
AC-26-2	US-26	After enrollment from the detail page, the button changes to 'Go to Course' or 'Continue Learning' state.

AC-27-1	US-27	If a preview/intro video is available, it plays inline without requiring enrollment or login.
---------	-------	---

6 Course Enrollment

Enrollment is a critical conversion step. It must be instant, frictionless, and clearly confirmed to the learner.

Personas: **Registered Learner** | **Guest Visitor**

User Stories

US-28	Registered Learner	enroll in a free course with a single click	start learning without any friction	High
US-29	Guest Visitor	be redirected to the login page if I try to enroll without an account	understand that I need to be logged in to enroll	High
US-30	Registered Learner	see my newly enrolled course appear immediately in 'My Courses'	confirm my enrollment was successful	High
US-31	Registered Learner	not be able to enroll in the same course twice	avoid duplicate entries in my course list	Medium
US-32	Registered Learner	unenroll from a course I no longer want	manage my course list and keep it relevant	Low

Acceptance Criteria

AC ID	US Ref	Criterion — The feature is accepted when...
AC-28-1	US-28	Clicking 'Enroll Now' while logged in immediately grants access to course content with no additional steps required.
AC-28-2	US-28	A success notification (toast or confirmation message) is shown upon successful enrollment.
AC-29-1	US-29	Attempting to enroll as a guest redirects to the login page with a return URL so the user is taken back to the course after login.
AC-30-1	US-30	The enrolled course appears in 'My Courses' / dashboard within 2 seconds of enrollment.
AC-31-1	US-31	If a user is already enrolled, the 'Enroll Now' button is replaced with 'Go to Course'; attempting to re-enroll via URL manipulation shows an appropriate message.
AC-32-1	US-32	If unenrollment is supported, the user must confirm the action before it takes effect; progress and certificates already earned are preserved or a warning is shown.

7 Learning Experience

The learning experience is the core product. Learners must be able to watch videos, navigate lessons, track their progress, and access supplemental materials seamlessly.

Personas: **Enrolled Learner**

User Stories

US-33	Enrolled Learner	watch video lectures within the course player	consume the course content effectively	High
US-34	Enrolled Learner	see my progress tracked automatically as I complete lessons	know how much of the course I have finished	High
US-35	Enrolled Learner	navigate between lessons using Previous and Next buttons or a sidebar outline	move through the course at my own pace	High
US-36	Enrolled Learner	resume a course from where I left off after closing my browser	not lose my progress between sessions	High
US-37	Enrolled Learner	download supplemental materials (PDFs, slides, resources)	study offline or reference materials later	Medium
US-38	Enrolled Learner	mark a lesson as complete manually if needed	accurately reflect my progress even after watching	Medium

Acceptance Criteria

AC ID	US Ref	Criterion — The feature is accepted when...
AC-33-1	US-33	Video player loads within 5 seconds on a standard connection and plays without buffering interruptions.
AC-33-2	US-33	Video player supports play/pause, seek, volume control, full-screen mode, and playback speed adjustment.
AC-34-1	US-34	Course progress percentage is updated automatically after each lesson is completed or video is fully watched.
AC-34-2	US-34	Progress is shown both in the course player sidebar and on the dashboard course card.
AC-35-1	US-35	A course outline/sidebar is visible within the course player listing all sections and lessons.

AC-35-2	US-35	Previous and Next buttons correctly navigate between adjacent lessons; the last lesson has no 'Next' button.
AC-36-1	US-36	Re-opening a started course highlights or directly opens the last-accessed lesson.
AC-36-2	US-36	Video playback resumes from the last watched position (or at minimum from the beginning of the last watched lesson).
AC-37-1	US-37	Downloadable files are listed within the relevant lesson; clicking triggers a download without errors.
AC-38-1	US-38	A 'Mark as Complete' button or equivalent is available per lesson and updates progress correctly upon clicking.

8 Quiz & Assessments

Quizzes ensure knowledge retention and are often a prerequisite for certificates. They must be reliable, fair, and provide clear feedback.

Personas: **Enrolled Learner**

User Stories

US-39	Enrolled Learner	take a quiz to test my understanding of a module	reinforce my learning and progress toward a certificate	High
US-40	Enrolled Learner	see a countdown timer if the quiz is time-limited	manage my time during the quiz	High
US-41	Enrolled Learner	receive my score and see which questions I got right or wrong immediately after submission	learn from my mistakes	High
US-42	Enrolled Learner	retake a failed quiz to improve my score	not be permanently blocked from progressing	High
US-43	Enrolled Learner	see the passing score required before I start the quiz	set the right expectations for my performance	Medium

Acceptance Criteria

AC ID	US Ref	Criterion — The feature is accepted when...
AC-39-1	US-39	Quiz questions load fully before the timer (if any) begins; a broken or partially loaded quiz is considered a test blocker.
AC-39-2	US-39	All question types (MCQ, true/false) render correctly with selectable answer options.
AC-40-1	US-40	If a time limit is set, a countdown timer is prominently displayed throughout the quiz.
AC-40-2	US-40	The quiz is automatically submitted when the timer reaches zero; no further answers can be changed after expiry.
AC-40-3	US-40	A visual warning (e.g., timer turns red) appears when less than 1 minute remains.
AC-41-1	US-41	Results are displayed immediately after submission, showing: total score, pass/fail status, and per-question feedback.

AC-41-2	US-41	Correct answers are shown for questions the learner answered incorrectly.
AC-42-1	US-42	If retakes are allowed, a 'Retake Quiz' button is available on the results page.
AC-42-2	US-42	Each retake presents questions in a fresh state; previous answers are not pre-selected.
AC-43-1	US-43	The passing score threshold is displayed on the quiz introduction/start screen before the learner begins.

9 Certificate

Certificates are a major motivator for learners on platforms like MaharaTech. They must be automatically awarded, professional in appearance, and reliably downloadable.

Personas: **Enrolled Learner**

User Stories

US-44	Enrolled Learner	automatically receive a certificate when I complete all course requirements	have tangible proof of my achievement	High
US-45	Enrolled Learner	download my certificate as a PDF with my name and course title	share it with employers or add it to my LinkedIn	High
US-46	Enrolled Learner	find all my certificates in one place in my profile	access my credentials without searching through courses	High

Acceptance Criteria

AC ID	US Ref	Criterion — The feature is accepted when...
AC-44-1	US-44	A certificate is automatically generated when the learner completes 100% of course content AND passes any required quiz.
AC-44-2	US-44	If no quiz is required, completion of all lessons triggers the certificate.
AC-44-3	US-44	The learner receives a notification (on-screen and/or email) when their certificate is ready.
AC-45-1	US-45	The certificate PDF includes: learner's full name, course title, completion date, and platform branding/logo.
AC-45-2	US-45	Clicking 'Download Certificate' produces a valid PDF that opens correctly in standard PDF readers.
AC-45-3	US-45	The learner's name on the certificate matches exactly the name entered in their profile at the time of completion.
AC-46-1	US-46	All earned certificates are listed under a 'Certificates' or 'Achievements' section in the user profile.
AC-46-2	US-46	Each entry shows the course name and completion date, with an individual download button.

10 Search

Search is how learners find specific courses quickly. It must be fast, relevant, and handle edge cases like typos or no results gracefully.

Personas: **Guest Visitor** | **Registered Learner**

User Stories

US-47	Guest Visitor	search for a course by typing a keyword in the search bar	quickly find courses on a topic I am interested in	High
US-48	Guest Visitor	see a helpful message if my search returns no results	know the search worked and consider adjusting my query	Medium
US-49	Registered Learner	see search suggestions as I type (autocomplete)	find courses faster without typing the full name	Low

Acceptance Criteria

AC ID	US Ref	Criterion — The feature is accepted when...
AC-47-1	US-47	The search bar is accessible from the main navigation on all pages.
AC-47-2	US-47	Search results are returned within 2 seconds and match the entered keyword against course title, description, and category.
AC-47-3	US-47	Search is case-insensitive; 'python', 'Python', and 'PYTHON' return the same results.
AC-48-1	US-48	A zero-results search shows a friendly empty-state message (e.g., 'No courses found for X') along with suggestions to try different keywords or browse categories.
AC-49-1	US-49	If autocomplete is implemented, suggestions appear after typing at least 2 characters and are dismissible.

11 Accessibility & Localization

As a government-backed platform serving Egyptian and Arab learners, MaharaTech must be accessible across devices and support Arabic as a first-class language with full RTL support.

Personas: **All Users**

User Stories

US-50	All Users	use the platform on my mobile phone without layout issues	learn on the go regardless of device	High
US-51	All Users	use the platform on a tablet in both portrait and landscape modes	choose my preferred reading posture	Medium
US-52	Arabic Speaker	switch the interface to Arabic and have the entire layout mirror to right-to-left	use the platform in my native language comfortably	High
US-53	All Users	use the platform consistently across Chrome, Firefox, and Edge	not be limited by my choice of browser	High
US-54	All Users	experience no broken layouts or overlapping text at any standard screen size	have a professional, polished experience throughout	High

Acceptance Criteria

AC ID	US Ref	Criterion — The feature is accepted when...
AC-50-1	US-50	All core pages (home, catalog, course detail, course player, profile) render correctly at 360px width with no horizontal scrolling.
AC-50-2	US-50	Tap targets (buttons, links) are at least 44x44px on mobile to ensure comfortable touch interaction.
AC-51-1	US-51	The layout reflows correctly when switching between portrait and landscape on a 768px tablet viewport.
AC-52-1	US-52	Selecting Arabic from the language toggle changes all UI text to Arabic and flips the layout to RTL including: navigation, course cards, buttons, and form labels.
AC-52-2	US-52	Icons that imply direction (arrows, back buttons) are also mirrored in RTL mode.

AC-53-1	US-53	The platform is tested on the latest stable versions of Chrome, Firefox, and Edge. No critical functionality is broken on any of the three browsers.
AC-53-2	US-53	Video playback works on all three browsers without requiring additional plugins.
AC-54-1	US-54	No text overflow, element overlap, or broken container widths appear on viewports of 360px, 768px, 1024px, and 1366px.
